FOR RELEASE: Immediately

AeroCat Cycling Team Crushes Competition at Ohio Triple Weekend

GRANDVIEW, OH (June 25-27, 2010) – AeroCat LLC, an Indiana based high performance bicycle manufacturer, is pleased to share the success of the AeroCat Cycling Team this past weekend at the Ohio Triple Weekend races. The series kicked off on Friday with the debut of the Madeira Criterium course, which featured two hairpin turns and a railroad crossing. Emile Abraham was AeroCat's top performer with a 3rd place finish and teammate Juan Pablo Dotti finished just behind (4th). Diego Garavito collected two primes and placed eleventh and Andrew Crater finished nineteenth to round out the AeroCat riders.

Climbing up from his fourth place finish on Friday, Dotti took the top spot in Saturday's Hyde Park Blast Criterium after narrowly avoiding a crash in the last hundred meters that took Abraham to the ground. Crater and Garavito notched 4th and 10th places respectively.

Proving that one win for the weekend was not enough for team AeroCat, Crater claimed a victory in Sunday's Tour de Grandview Criterium after out-sprinting Panther rider Daniel Campbell. The two had maintained a two-man break for the last several laps before Crater was able to win the race at which he had placed second in 2009. Dotti grabbed the fifth place podium position and Abraham managed to place eighteenth of thirty-five of the original eighty-one riders who were able to finish the race despite his previous day's wreck.

By the end of the series, Dotti accumulated enough points to be named the overall point category champion and Crater joined him on the podium with his second place overall point category finish.

The AeroCat Cycling Team will return to action together to compete in Superweek, a Chicagoland series extending from July 9th-25th.
